

EDP Sciences' Electronic Journals Single Site Access License

2025 Terms and Conditions

1. Scope of agreement

By this Agreement, EDP Sciences grants the Subscribing Institution a nonexclusive, revocable, non-transferable License allowing Authorized Users of the Subscribing Institution to access the online version of the journal(s) published by EDP Sciences and to which the Subscribing Institution has subscribed (*Title of journals*)

Depending on the type of institution, Authorized Users under this Agreement must be employees (whether permanent, temporary or engaged on a contract basis, visiting workers), faculty staff, researchers or students attached to the Subscribing Institution's main site, to the exclusion of any other person or entity.

Subscribing Institution may request remote or secondary sites be granted access to the Journals. In this regard, the list of IP addresses given by the Subscribing Institution in the registration form must specify the geographical locations of the Subscribing Institution's main site and of its remote or secondary sites and the nature of the latter's ties with the Subscribing Institution. The subscription rate may vary according to the number of secondary sites, as per EDP Sciences' tariff.

If you have any query, please contact subscribers@edpsciences.org.

This License grants Authorized Users permission to access the Journals and:

- to search the electronic version of the Journals.
- to make hard copies of the output of any search; such copies may be shared with unauthorized users to the same extent as the print edition of the Journals, provided that such sharing is for the sole purpose of scholarly communication or educational use and exclusive of any commercial use or benefit. Authorized Users who print articles from the Journals must maintain all copyrights and legal notices on the printed articles.
- to download search results to storage devices. Authorized Users who download articles must maintain all copyrights and legal notices.

An Authorized User is not allowed to make EDP Sciences' Journals available, under any form whatsoever, to anyone other than another Authorized User without prior authorization from EDP Sciences.

This Agreement binds and is enforceable against the parties hereto. The Subscribing Institution shall take appropriate action towards Authorized Users should it become aware of any misuse that would violate the terms of this Agreement.

2. Duration - Termination

This Agreement will have the same duration as the subscriptions (including renewals) to the Journal(s), subject to subscription rates being paid on due date. Either party may terminate this Agreement by notice given to the other party at least thirty days prior to the next renewal date.

EDP Sciences may suspend or terminate this Agreement without prior notice if the Subscribing Institution or any of its Authorized Users commit a breach which may be remedied, and that breach is not remedied within 30 days of notice to do so from EDP Sciences.

On termination of this License, the Licensor shall provide continuing access for Authorised Users to that part of the Licensed Materials which was accessible during the term of this Agreement, either from the Server; or by supplying electronic files to the Licensee subject to payment of such fees as the parties may agree, as long as the Licensed Materials is the property of EDP Sciences.

3. Delivery

EDP Sciences' electronic Journals will be made available in the standard Internet format using mainly Adobe Acrobat PDF or HTML. EDP Sciences reserves its right to change such format with a three months' notice. The Subscribing Institution and its Authorized Users shall have sole responsibility to set up and maintain the necessary Internet connections allowing access to EDP Sciences, to provide and install suitable Web browsers or any other required software and to obtain the necessary licenses to use such software.

4. Access and authentication

For purposes of the Single-Site License, an "Authorized Site" is a localized site (one geographical location) that is under a single administration. For an organization with locations in more than one city, each city is considered to be a different site. For an organization that has multiple locations in the same city that are administered independently, each location is considered to be a different site. No access from remote campuses or remote sites and no consortia or other forms of subscription sharing are allowed under this License.

5. Copyright

EDP Sciences as publisher of the Journals has sole ownership over all rights, titles, and interest for all contents thereof available on the site, including copyrights, translation and redistribution rights and the right to reproduce the material in alternate media. EDP Sciences' electronic Journals and their contents are subject to copyright, database protection and other rights of the publisher under the laws of France and the country of use of the said material and contents.

The Subscribing Institution acknowledges that it has no claim to ownership on the said material and contents by reason of its use of or access to EDP Sciences' electronic Journals. Downloading or copying the data accessible on EDP Sciences' site is allowed for personal or educational use to the same extent as the print edition of the Journals. Other uses, including recompiling, copying or publication of the data or any part thereof, under any form or in any medium, are subject to the prior and written permission of EDP Sciences.

6. Archives

With an annual subscription, access to the « archives » is authorized for reference only and not for full download. It is thus forbidden to download and to save a copy of the archives that you obtain through a subscription or through free archives. Only the full acquisition of the archives gives this right.

The archives are composed of:

- Content published before the online version of the journal existed and which has been digitized in order to make available the online archive (e.g.: Journal de Physique Archives).
- Content to which the subscriber has never subscribed, but that is free (articles that do not have an embargo or journals that are in open access).
- Content to which the subscriber has never subscribed, but that is free thanks to his subscription to a journal. In this case, it means free access to a certain number of back years. Access to these archives is not maintained for a user who does not renew his subscription.

Use of the articles downloaded from the website:

No commercial use of articles obtained through subscriptions or free access is authorized. Though it is authorized for an author to use an article on his personal site or on his institute's open archives, this is possible only if the downloading does not concern all or almost all of the articles of a journal, which would be harmful to the economic or editorial model of the journal (excluding journals in open access).

7. Technical support

Technical assistance and customer support are available Monday to Friday at office hours by email to subscribers@edpsciences.org.

8. Disclaimer

EDP Sciences warrants that it has the authority to grant the License as set out in this Agreement. EDP Sciences has made and will make reasonable efforts to ensure that its electronic journals are a complete and accurate electronic version of the Journals but does not guarantee that they are.

EDP Sciences shall not be liable for any incidental, consequential or any other damage arising out of or in connection with the performance of this Agreement. Under no circumstances shall the total aggregate liability of EDP Sciences for any claim, loss or damage arising out of the performance or termination of this Agreement, whether in contract, tort or otherwise including without limitation damages due to negligence, exceed the total amount paid by the Subscribing Institution to EDP Sciences for the subscription for the current subscription year in which such claim, loss or damage occurred, even if EDP Sciences has been informed of the possibility of such potential claim, loss or damage.

9. Miscellaneous

This Agreement, together with EDP Sciences' price list, constitutes the entire agreement between the parties hereto and supersedes any other prior understanding or agreement, whether oral or in writing. The various headings in this Agreement are for information purposes only and do not limit the scope or content of the subject matter contained therein. No waiver, amendment or modification of this Agreement shall be effective unless it is in writing and signed by the parties hereto. This Agreement is submitted to French law and any dispute arising out of the performance of this Agreement shall be settled by French Courts.

This Agreement, and the rights and obligations thereof, may not be assigned or transferred by the Subscribing Institution.

By signing below, you certify that you have read, and agree to abide by, the terms and conditions of this Agreement and that you are duly authorized to sign this Agreement on behalf of your institution. In the absence of signature of this document, subscription to any one of the Journals published by EDP Sciences and accessing EDP Sciences' Internet site shall constitute formal acceptance of the terms of this Agreement on behalf of the Institution.
